

Veeraboina Bharath

vbharathyadav997@gmail.com — +91-9347562972 — LinkedIn — GitHub — Leetcode

Professional Summary

Detail-oriented B.Tech Information Technology student with strong expertise in **Java, Data Structures, and Full Stack Development**. Proven ability to design, develop, and deploy scalable web applications using React, Spring Boot, and MySQL. Highly disciplined competitive programmer with consistent problem-solving performance and a strong foundation in computer science fundamentals.

Education

B.Tech in Information Technology <i>Sreenidhi Institute of Science and Technology</i>	2023 – 2027 <i>Hyderabad, India</i> CGPA: 8.7
Intermediate (MPC) <i>MJPBCWR Junior College</i>	2021 – 2023 <i>Chandrayan Gutta, Hyderabad</i> Percentage: 98.3%

Technical & Soft Skills

Programming Languages: Java, JavaScript, Python, SQL
Frontend Technologies: HTML, CSS
Backend Technologies: Spring Boot, JDBC, Hibernate, REST APIs
Databases: MySQL
Developer Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS
Soft Skills: Collaboration, Teamwork, Adaptability, Consistency, Problem Ownership

Professional Experience

Java Developer Intern <i>Infosys Springboard</i>	Oct 2025 – Dec 2025
--	---------------------

- Designed and developed a full-stack **E-Waste Management System** using React, Spring Boot, and MySQL following MVC architecture.
- Built secure and scalable REST APIs to handle e-waste requests, admin verification, scheduling, and status tracking workflows.
- Implemented JWT-based authentication and authorization to support role-based access control (Admin/User).
- Integrated MySQL database with optimized queries to ensure reliable data persistence and consistency.

Academic & Personal Projects

E-Waste Management System (Full Stack Web Application)	GitHub
---	--------

- Developed a production-style web platform to manage e-waste pickup requests, approvals, and lifecycle tracking.
- Designed RESTful backend services using Spring Boot and integrated MySQL for persistent storage.
- Implemented role-based access control and secure authentication using JWT tokens.

LRU Cache Visualizer (JavaFX Application)

- Built an interactive JavaFX-based visualization tool to demonstrate Least Recently Used (LRU) cache replacement.
- Implemented real-time animations and event-driven UI to enhance understanding of cache behavior.
- Strengthened knowledge of data structures, memory management concepts, and Java UI programming.

Certifications

- Data Structures and Algorithms using Java — Infosys Springboard
- Programming using Java — Infosys Springboard
- Database Management System — Infosys Springboard
- Java Full Stack Developer Virtual Internship — AICTE

Achievements

- Solved **730+ LeetCode problems** with a peak rating of **1947**, ranking among the **Top 5% globally**.
- Achieved **Knight Badge** on LeetCode for consistent high-performance problem solving.
- **Winner — GeekWeek 5.0 Coding Contest** conducted by ECA at SNIST.
- Secured **1st Rank** among SNIST Y23 batch for solving the highest number of contest problems (MentorPick).
- Finalist in BeingZero Coding League, competing against top programmers statewide.
